Forecast for Saturday 09 Mar 2024

Weather: Cloud thickening overnight to bring showers towards dawn, these wintry across highest routes. A rather cloudy day with showers, quite frequent through the morning, easing in the afternoon with the west seeing best chance of limited brighter spells developing. Area of rain feeding from the southeast during the evening.

Chance of cloud-free hill tops above 800m: By day 70% in west, 30% in east

Low Cloud and visibility: Good becoming moderate or poor in rain, very poor in snow and within cloud with bases quite extensive in the east from 800m, occasionally so in west.
